INTRODUCTION

California Pacific offers 50 passenger solutions for scheduled commercial service and charter flights. Our flawless safety record and FAA Part 121 certified operation creates the foundation for success. All crews and flight attendants are trained and qualified in accordance with Part 121 specifications.

The California Pacific fleet consists of Embraer ERJ 145 aircraft specifically designed to fly medium sized groups shorter distances at greater speeds. The ERJ 145 has an impressive mission completion rate of 99.7%.
